THIS IS UNEVALUATED INFORMATION.

- 25X1 L. More of the older military classes are being called to the army. These classes include those men born from 1919 to 1925. Most of the men being called are those who had not served in the army previously, or who had not been called since the end of the war. The men are not being called by public proclamation, but by individual letters addressed to each man.
  - 2. Russian families in Swinoujscie are being sent to Russia. It is not known how many Soviet families have left Swinoujscie, but the arrival of any new families has not been noted. The departure of these families may be caused by a large anti-Russian demonstration which occurred at Szezecin in April, at which time several Poles were killed, several hundred Poles arrested, and one Russian officer lynched.
